"You Shall Know the Truth"

War is the sum-total of all crimes. Left to themselves no people would make war. War-makers are heartless, cunning, greedy. All wars are for booty. The U. S. A. engaged in wars for the booty of the Allies and the destruction of free government by the people, of the people, for the people. Wars bring slavery and conscription, debts and poverty for unborn generations even.

We all admire a man who says what he thinks — as long as he says it about other people.

Truman Moves Toward Another War

Editor's Note: The Chicago TRIBUNE is pointing to the same fact we pointed to in our reply to Mr. Weiss last week. Mr. Weiss is against Communism, but he is for the **totalitarian state** where the people are the **servants of the state** and not the state the servant of the people. Mr. Weiss points out that his totalitarian state has "culture" and all who have this sense of "culture" should now arise to protect it, not as free Americans **against all types** of totalitarian states, but as servants of the "culture" state.

It becomes clear that the Nazi state is totalitarian plus KULTUR; the Soviet is totalitarian minus KULTUR. Or put it this way: The Nazis rule by brutal force but are housebroke, the Russians rule by brute force but lack the KULTUR of W. C. so they stink up streets and homes.

* * * *

President Truman is to sing a Circean song to congress today, designed to lure the ship of state onto the rocks of a new war. Mr. Truman won't put it quite that way. He will represent it to be America's duty to hand out some hundreds of millions of dollars to achieve political and economic stability in Greece, Turkey, and perhaps a few other regions. Congress will be told that valiant Britain is no longer equal to the burden.

It is to be doubted whether Mr. Truman will talk in public about Russia and the menace of communist aggression. It wouldn't do, with a supposed peace conference under way in Moscow, to say that the new ramparts that America is to watch look out upon the soviet union and that the sentinels will have a suspicious eye. We wouldn't distrust an ally, now, would we?

Mr. Roosevelt once was credited with saying speciously that America's frontier was on the Rhine. That, too, was in time of peace. Mr. Truman's horizons, in comparison, are unbounded. How ambitious his outlook is has been suggested by Sen. Vandenberg, who heard the President outline his notions of quarantining communism at a meeting of congressional leaders Monday.

"So far as the Greek loan is concerned," said the chairman of the senate foreign relations committee, "I indicated to my colleagues my opinion that it is not an isolated phase but may prove to be symbolic of general policy which may have to be pursued all around the world, inasmuch as the same fundamentals are involved in so many situations."

Translated, this means that the United States is to take on the responsibilities of a world empire, expending vast sums of money to prop up faltering political regimes and economies of all kinds, just as long as they are not Communist, and standing ready to defend them at any time with troops, planes, ships, and atom bombs. We are saying to Stalin, "So far you have gone, but we will not let you go one step farther."

This ominous march of the Truman administration from America to new frontiers in the shadow of Mount Olympus and to the Balkar Dagh and the shores of the Black sea is an outgrowth of the foreign policy which Mr. Roosevelt embraced 10 years ago in his speech to "quarantine" the aggressors. The original quarantine was to apply to Germany, Italy, and Japan. Mr. Roosevelt promoted the United States into war on that basis. Now his successor is promoting another quarantine against another menace and, if he succeeds, it will be miraculous if in the long run, or even in a short term, the policy does not bring another war.

The ironic development in policy from Roosevelt thru Truman leaves Mr. Truman the spiritual legatee of Hitler, Mussolini, and the Japanese. **Hitler proclaimed himself the defender of civilization against Russian barbarism, and in that role invented the anti-comintern pact of Nov. 25, 1936, in which Germany and Japan undertook to quarantine Russia on their own. A year later Italy subscribed to this instrument.**

The purposes of Mr. Truman's policy are identical with those proclaimed in the anti-comintern pact, which affected to recognize that "the aim of the Communist Internationale . . . is to disintegrate and subdue existing states by all the means at its command," and that its interference **"in the internal affairs of the nations not only endangers their internal peace and social well-being but is also a menace to the peace of the world."** The axis protectors of civilization, therefore, pledged themselves to "necessary preventive measures" and invited third states menaced by communism to "adopt defensive measures in the spirit of this agreement."

This is precisely Mr. Truman's outlook and it is a curious commentary on the mentality of the President that he now finds good the essential ideology of three nations which his predecessor thought it imperative to destroy. The American anti-comintern policy is different from that evolved by the axis partners only in that Mr. Truman is not able to find any other signatories. The defense against world communism is regarded as a unilateral American undertaking.

As a beginning, Mr. Truman wants to pour about 400 million dollars of American money into Greece and Turkey. As Mr. Vandenberg makes clear, every other nation outside the soviet boundaries may be expected to turn up as a claimant to American financial assistance and military protection. Billions upon billions will go this way, with no tangible return and no lasting increment of strength in the feeble nations which Mr. Truman is taking under his wing. Knowing that they can count upon America to defend them, they will be under no compulsion to organize for their own protection.

The predictable outcome is war, for Russia can only regard this policy as hostile and dedicated to defeating her ambitions if not destroying her. As the bill presented to the treasury mounts, the United States will approach bankruptcy. When war develops, the United States will fight it as an impoverished nation. To such lunacy have Mr. Roosevelt and Mr. Truman led us. — Chicago Tribune.

LETTER HELD, CONVICT SUES

SAN FRANCISCO, — An Alcatraz prisoner who wanted to learn good English so he could write an expose of "The Rock" and a deputy warden who allegedly interfered with the convict's hopes of a literary career figured in a Federal Court action.

On the application of the prisoner, Richard A. Humer, Tennessee bank robber, Judge Michael J. Roche ordered the deputy warden, E. J. Miller, to appear in court March 24.

Miller will be required to answer Humer's charge that the deputy warden held up a letter from the convict addressed to the University of California seeking a course in English composition.

Why Truman is "Oiling" Greece

WASHINGTON, — The Truman doctrine of militant aid for Greece and Turkey is vitally linked to the national necessity of preserving American control of the rich Middle East oil fields.

If the virtually untapped Persian oil kingdom were to fall into the hands of the expanding Soviet Union, THE UNITED STATES WOULD BE REDUCED TO A THIRD-CLASS POWER WITHIN A DECADE OR SO.

The international picture in oil was painted by high Government officials as follows:

American oil resources have been dangerously depleted thru World War II and accompanying lend-lease bounty.

Another world war could not be fought by the United States without access to the Middle East oil fields.

Soviet development of these fields would permit the USSR to fuel its growing industrial machine for the anticipated bitter global economic war with the United States.

Without the Middle East fields, the oil hungry economic system of the United States would be struggling for survival in such a contest.

Strategically, naval forces now permanently assigned to the Mediterranean, depend on refueling from Middle East oil supplies.

The political implications in the Truman outline for a PAX Americana overshadowed the concurrent move by American oil companies to add to the national oil reserve in the Middle East.

A secret geological report has estimated that Middle East oil runs for 100 miles thruout Asia Minor.

Fortifying the American domestic supply of oil as well as needed naval reserves, a third new Middle East pipeline was planned this week by American oil interests.

Another 1000-mile pipeline, to be jointly operated by Standard Oil of New Jersey, Socony-Vacuum Oil Company and Anglo-Iranian Oil Company (British), will facilitate rapid transfer of oil to Mediterranean ports from the Iranian and Kuwait fields.

The Arabian-American Oil Company, with exclusive oil concessions in Saudi Arabia, is also building an $80,000,000 pipeline across Arabia to the Mediterranean. The company is owned by Standard Oil of California and the Texas Company.

Iran is expected shortly to obtain a large loan from the Export-Import Bank.

The pattern for the proposed economic and military aid to Greece has been developed quietly in Iran by the United States since the collapse of Soviet influence in that oil-laden little nation.

An American military mission has been busily engaged in reorganizing the army and constabulary of Iran. American economic and public health advisers have also been active in Iran.

Union Boycott for Coercion Ruled Illegal

CHICAGO,—Attempt of local 179, International Brotherhood of Teamsters and Chauffeurs (AFL), to force two Joliet service station operators to become union members by cutting off their supplies thru a boycott was ruled unlawful by the Illinois Appellate court at Ottawa, La Salle county.

The court reversed a previous ruling of Judge C. D. Henry in Will County Circuit court at Joliet dismissing an injunction and damage suit brought by the filling station operators.

The Appellate court ordered the injunction against the union issued and damages granted, the amount to be fixed by the Circuit court of Will county. In their suit the Joliet plaintiffs, Leo J. Dinoffria of 1132 N. Collins st. and John Clementi of 1405 Plainfield ave., had sought damages of $10,000 each.

BOYCOTT RULED UNJUSTIFIED

The suit resulted from the activity of the union a year ago in attempting to force service station operators and other employers in Joliet to join the union, tho they contended they were employers and not employes. Some service stations were forced to close because union drivers would not deliver supplies across picket lines.

The Appellate court opinion, written by Justice George W. Bristow, stated:

"The court has concluded that there was no justification for the defendant's boycott and other unlawful interference with the plaintiff's right to exercise and enjoy the fruits and advantages of their own enterprise, industry, skill, and work."

BOYCOTT NO BENEFIT TO UNION

After reviewing other court decisions, Justice Bristow commented: "In no case has the court sanctioned or been called upon to approve peaceful picketing or boycotting or other conduct of a labor union where it has been directed against a self-employer who hires no employes.

"Inasmuch as the only discernible purpose of the defendant (union) in compelling plaintiffs to join the union was to regulate the plaintiffs' service stations and thereby destroy fair competition, the life blood of industry, defendant's conduct in thus interfering with the operation of the plaintiffs' businesses cannot be justified as being in the interests and for the economic advancement of the members of the union.

UNION CONDUCT UNPROTECTED

"Such conduct cannot be deemed lawful and protected by the the constitutional guaranty of free speech."

New Trial Sought in Sedition Case

CHANGE FROM 1944 TECHNIQUE PLANNED WITH ONLY 10 OR 12 FACING COURT AT ONCE

NEW YORK,—Continuing its efforts to prosecute the surviving defendants indicted in 1942 in the mass sedition case, the Department of Justice has appealed a United States District Court decision dismissing the indictments, it was learned here.

The record of appeal from the decision was filed with the Court of Appeals in Washington on Friday, according to Assistant Attorney General Theron Lamar Caudle, in charge of the criminal division.

If the appeal is granted, the Government will press the case against an undisclosed number of the original defendants. Of the twenty-eight alleged seditionists named in the original indictment two have died.

JEWISH "ANTI-NAZI LEAGUE" DICTATES PERSECUTION

The Department of Justice's appeal from this decision was made known in a telegram sent by Mr. Caudle to the Organizations Council of the "Non-Sectarian" Anti-Nazi League, meeting in the Hotel Capitol.

It was said here that Attorney General Tom C. Clark had "high hopes" that the decision would be reversed.

Mr. Caudle, reached at his home in Washington, declined to say which of the alleged seditionists would go on trial again if the appeal were sustained. He said he had named Irving S. Shapiro, special assistant to the Attorney General, to argue the case.

"Revenge" on Innocent German Residents

Dear Mr. de Aryan:

Would it be asking too much of you to appeal to your readers to write at once similar letters to their U. S. Senators and Congressmen as per following example:

"Senator .....
Senate Office Building
Washington, D. C.
Dear Senator:

or: Hon. .....
U. S. Representative
House Office Building
Washington, D. C.
Dear Congressman:

As you perhaps know, there are still some 300 long time legal residents, classified as "Alien Enemies", interned on Ellis Island, N. Y., Crystal City, Tex., and other U. S. concentration camps awaiting deportation to Germany.

None of these Germans has committed any crime or offenses subjecting them to removal under the existing deportation and naturalization laws.

The only reason given by the Department of Justice for their deportation is that these internees adhered to the Nazi form of government.

If these deportations are carried out it will work great hardship, as many of these internees have families and places of business in this country.

It would seem only just and fair that these "enemy aliens" be released forthwith from internment and be permitted to indulge in their peaceful occupations in this country as before the war.

The undersigned would appreciate it, if you would see fit to have legislation introduced calling upon the Attorney General to vacate and set aside his order of deportation and restore them to their status of freedom as existing before their internment.

Sincerely yours,

Thanking you, I am, Cordially yours,
KURT MERTIG.

KARMA AND REINCARNATION

"Kosti," spoke up Gladys after we had said our morning prayers and done our "setting-up" exercises on the breath, "while I know that everything that happens MUST BE JUST, otherwise God would be unjust to let it happen, still, I seem to miss the detailed connection of cause and effect. Often I wonder whether it is right that you have to struggle so hard to make both ends meet, pay for THE BROOM, and look after people who need your help."

"Discipline, mind discipline, is a very useful habit, dear. Even if you miss the connection between cause and effect in the details of daily occurrences, watch your mind that you may not fall into stupid ruts of doubting the unfailing Justice of God. That's where Faith comes in to guide your scientific interest. Until you develop your intelligence enough to catch on to the correct details, hang on to Faith on general principles by reminding your ignorant mind that God is Justice itself; hence injustice is impossible in the worlds His Thought produced, regardless of the puzzling instances you encounter daily."

"All right, Kosti, agreed upon the wisdom of keeping faith in God till I learn how Justice operates infallibly, yet I think, you ought to help me unravel these seeming injustices that keep me confused."

"Give me a few examples."

"Take your own case. Why do you have to live in a small shack when you have talents and abilities which you could have utilized commercially to great advantage and be rich today? Just because you have chosen to follow Principle and did not join in Mammon worship is no reason why God should withhold from you the use of a well-built home, equipped with all the comforts of our industrial progress. How do I account for this? Should you not be rewarded with even lovelier surroundings since you work for God, than you would have been having had you worked hand in glove with the Duke family, those tobacco tycoons, or the Standard Oil, or the way Emanuel works hand in glove with the oil people, even in wartime?"

"Darling, the purpose of Justice is not to give me opulence first, because I refused the offers of tycoons to share their loot and exploit mankind; the purpose of Life is to develop my own strength of character, my ingenuity to survive and still do my work in spite of the fact that the vice-exploiters amass more and more power and humanity goes deeper into the mire. This ability **to stand alone and mind my own,** this is the pearl of freedom and self-reliance. In the measure of my success I attract people who help me do our work and I have greater freedom in my shack than in a million dollar mansion built from the tears and blood of war victims."

"I can see the point of character, Kosti, but just the same, does not God and humanity **owe you a mansion,** since for their sakes you gave up the chances of having one?"

"The secret of Justice lies in free choice. Don't forget that when the Duke people and the Standard Oil crowd offered to hire me at my own figure to devote my talents to their ends, I had to make my choice. Since I have not yet developed my faculties to where I could build up an organization of my own on purely Christ-like foundations, to match Duke's and the oil crowd's, I won a great victory in keeping myself free from their shackles, so that even during the war I dare denounce them and expose their perfidy, while, for example, the very "plenipotentiary" successor to Dr. Hanish, to the "Zar-Adusht: Prince of Peace" who calls himself "Elector" with "veto power in earth and in heaven", **Emanuel Bachman, licked the boots of the oil crowd** and worked hand in glove with them in the prosecution of the war."

"I see the spiritual effect in your life, Kosti, but why don't you command more prosperity?"

"Everything in season, Gladys. The point is: **do we keep faith?** Once we learn that much and execute it while the enemies of God oppose us even on the firing line of war; then we are gathering the momentum by which 'greater things than these ye shall do'. I am not dead yet. I am still alive and another important thing, child. Even if I should die before I have enjoyed my mansion, I'll come back."

"You mean reincarnate?"

"Why certainly! Do you think I put in trillions of years helping build the planet from etheric whirlpools into a fiery mass and then thru the eras of solidification to its present state merely to give up?!"

"But that is marvelous, Kosti, if this is our outlook, that we come back and can reap the results of our efforts."

"Gladys, God does not need the earth and all the universes. We learned our lesson **'when the morning stars were singing and the sons of God were shouting for joy',** as the first solar system started functioning. We had built and launched it and we kept up the work of evolution till vegetation covered the planet, animals incarnated and now we are here, too. We must keep up our original task until mankind evolves from the beast to divine consciousness and in such company we shall enjoy paradise, right here on this planet; but we must stick by our work and never yield to Lucifer and his Mammonistic Sanhedrin, even though 'Elector' Bachman does."

"I am happy I talked this over with you. What a difference between this religious concept of eternity and love of God and the circular sent out by **A. J. App, 2615 W. Craig Pl., San Antonio, Texas."**

"What about App, Gladys?"

"Well, App is professor of English at the Catholic **Incarnate Word College,** but he fails to incarnate God's Word. He warns that **if Germans are given the choice of 'democracy' WITHOUT East Prussia, or of Communism WITH East Prussia, the majority will want East Prussia back at the cost of whatever ideology, and turn Communists.** He says that Germany is traditionally the central Christian bulwark of Europe."

"So App wants to buy adherence to Christianity by a piece of land. Cannot be done! 'Christians' who are 'Christians' for material gain are no better than the Jewish Marranos who became Catholics for profit's sake. The Pope just had thousands of them baptized to save them from the Nazis, as Drew Pearson disclosed. That sort of trading faith for profit is what prostitutes religion."

Christ's Church of the Golden Rule

By C. LEON de ARYAN

LOS ANGELES,—Finally Referee Benno M. Brink has discovered that the value of a dead horse is not the same as of the living. Is that not marvelous?!

At the last court session he informed the Trustees and the Bankrupt that the value of the estate is not what was assumed to be. Therefore, said he, the **Trustees must discontinue every business enterprise of the estate because THEY were losing money.** He even confessed that where the managing members of the Church even now were **making a nice NET surplus,** the Trustees were **dissipating it in UNNECESSARY expenditures for accounting, attorney fees, supervision, etc.** Hence he ordered all further business discontinued. But, he realizes that the **DEAD business** is not producing **MARKET VALUES** which the estate had when it was being run by Mr. Bell as Trustee of the Church.

The truth is finally coming to light. Attorney General Kenny, as stooge for the CIO, was engaged in **KILLING** the Church and **not in protecting the "investments" of the "poor" members of the Church** as he falsely claimed when he started his first proceedings to have Mr. Bell removed for "fraud". Judges Mathes and Brink also, are **as culpable in this conspiracy of destruction and sabotage of a going concern.** They joined in with Kenny in wasting a whole year in unnecessary litigation to PROVE Mr. Bell a crook but now must confess that under his management the estate was worth twice as much as it is under Mathes and Brink's mal-administration of bankruptcy.

Negotiations are under way to let various church members lease the many enterprises and conduct them at a profit since they know how and have the right spirit that brings results.

Two "Conchies" Found "Guilty"

LOS ANGELES,—A jury of 8 women and 4 men found the two conscientious objectors to war "guilty" of refusal to obey orders in U. S. District Court here. John Robert Atherton and Herman Edward Behre were charged with refusal to obey transfer orders from the Glendora Civilian Public Service Camp to the "concentration" camp at Minersville, Calif. They had staged a "slow-down" in protest against not being paid any wages and treatment as "government slaves" because their religion forbids them to obey military orders.

The defense argued that under Selective Service both camps were not administered as **Civilian** camps but were under the direction of Col. Louis F. Kosch, U. S. Artillery in violation of the act of Congress which stipulates that conscientious objectors to war shall be assigned to camps for work of "national importance" under **civilian direction.**

Judge Charles C. Cavanah instructed the jury in points of law stating to them that they **must consider Col. Kosch a CIVILIAN** even though he wore constantly his army uniform and signed orders given to C. O. assignees with "Col. U. S. Artillery". Naturally, upon such idiotic and capricious instruction in points of "law" the jury had to assume that the camps were run by "civilians" in army uniforms, under army orders and so found the defendants "guilty" as charged.

Thus slavery to the military does not extend to the "Conchies" only, but also to the U. S. District Court presided over by Charles C. Cavanah. He is not one of the "native" judges in Los Angeles federal court but was imported for the occasion since the issue of railroading the "conchies" was too "hot" for the local boys on the bench.

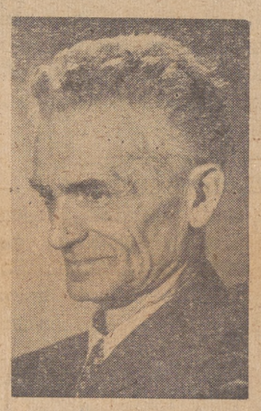
In Quest of the Holy Grail

MORE AUTOBIOGRAPHY

By C. LEON de ARYAN

One is being told continually that the Kingdom of God **does NOT operate in THIS world.** But every "Christian" prays: **"Thy Kingdom come, Thy Will be done, in Earth as it is in Heaven".**



C. Leon de Aryan

If one is simple minded, naturally, he figures that God's POWER is available NOW and HERE, otherwise what's the sense of praying for the impossible? And so I set out in quest of this POWER, which produced all the existing worlds, that I may be conscious and alive in it.

First thing I did was: **I failed to TRUST** in the Intelligence of the **still small voice** when it came into conflict with the members of my family. Result: I lost out. It was a defeat for me. And because I listened to them instead of following the divine inspiration, THEY claimed that I was "crazy" and locked me up to "cure" me. I am not "cured" yet. On the contrary, I learned from my defeat that I must not listen to fools who place themselves above God's RULE.

I paid my penalty and started anew. The goal is to demonstrate HERE and NOW that **GOD RULES even THIS world of ours.**

Readers of THE BROOM know some of the things that occurred. The main thing is not to allow FEAR to misdirect one's intelligence. And so wherever **other people are AFRAID to face the truth and confess it "before men",** whenever it comes my way, it becomes **MY BUSINESS to do it** and break the spell.

Naturally, when one does it, especially in **all lines,** one makes many enemies, or better said, the Lord's enemies are out to silence you because they hate the truth. They thrive on falsehood. And so one gets a terrific beating. Under these circumstances I neglected my own person, intent only to step forward wherever others fear to tread, as long as they feared to witness openly to the truth. The result of such neglect was a recent collapse. Getting skinnier and losing weight steadily, sleepless nights and perpetual travel with **bad hotel accommodations, bad beds** and noise; finally, the colon collapsed and one was in tortures of the damned. So here was now my challenge.

Of course, he who starts out to **prove the POWER of GOD** against ALL odds dare not capitulate. So in spite of all pains and crazy nightmares that haunted me like a lost soul, this mind held fast to the FAITH that we who search for the Holy Grail cannot be downed **before we made good.** I have a JOB to do and have not yet finished it, hence, there is a way.

Mr. Bell had spoken very highly of a young doctor by the name of **Edwyn E. Melby,** a chiropractor, as "one of his people". Contrary to what others may think of Bell, I found him to be pure metal. I lay great stock by those who sincerely respect Mr. Bell. So I went to see Dr. Melby and cut out the court session where a jury was being selected for David's trial.

He gave me a test, taking a picture of the colon after a barium injection, and there it was, collapsed from sheer exhaustion. Thereafter a good cleansing with water relieved the terrific pains. I slept well again. Next day I went for another treatment and then returned to San Diego to get this issue of THE BROOM ready. I am as chipper as ever.

Of course, it will take some more treatments with his Tox-Eliminator to do the work. I asked my friends to find me a room where I would not have to pay the exorbitant hotel rates and get bad service in return.

Dr. Melby is as interested in demonstrating that age and sickness is not **contemplated in God's plan of life for us,** as I am interested to prove that none need be afraid to stand with the truth. So we are akin and that helps more than one can imagine.

Hence THE BROOM will continue to come out on time and I shall sit thru most of David's trial and note what sort of "slave" state the U. S. A. has become under Sanhedrin rule. They hate the Christ and worship War and its military hangmen.

Joan McBride Defense Fund

Dear Mr. de Aryan:

Enclosed find $10.00 for Joan McBride defense. Just how a defense founded in violation of Geneva Convention by our government can be successful I don't quite see. When all these solemn treaties such as that Atlantic Charter, International law, etc., are openly violated and treated like scraps of paper by our officials, there does not seem to be much hope. They always accused the other fellow of breaking treaty thereby "justifying" themselves.

Sincerely, W. A. L.

Editor's Note: I had to spend all week in Los Angeles at the trial of two conscientious objectors to war and had to neglect writing the true story of Joan's part in "helping a prisoner of war to escape". It will appear in our next issue, I hope, since again I'll spend another week in the court attending David's trial.

The Douglas Stewart Frame-Up

By ELLIS O JONES

WASHINGTON,—The effort of O. John Rogge and associates to pin a perjury charge on Douglas M. Stewart, former editor of Scribner's Commentator, is palpably as rascally a case of frame-up as ever sullied the already badly tarnished reputation of our Department of Justice. That is the only fair conclusion that could be drawn by an unprejudiced listener to the evidence as presented by both sides. This evidence is all in and, at this writing, it only remains for the attorneys to make their final arguments after which the judge will charge the jury on the points of law and the jury of five blacks and seven whites will deliberate as to the facts. If it does not quickly reach a verdict of "not guilty", it will be a sad commentary on their honesty or integrity or both.

The prosecution's main witnesses were two German officials formerly connected with the German government here: Baron von Strempel, first secretary of the embassy, and Hans Thomsen, charge d'affaires after the withdrawal of the German Ambassador. Von Strempel swore that some time in the "late summer or early fall" of 1941 in a room in the Pennsylvania Hotel in New York, he gave a large sum of money, the amount which he could not remember but fixed at "ten to fifteen thousand dollars", to Mr. Stewart and a man who he at first thought was George T. Eggleston, but who he later decided was Lancaster Greene. He could not state how, when or by whom the arrangements for paying this money were made.

As in perjury cases it is necessary to have at least two witnesses to the main material act, the prosecution brought in Hans Thomsen who swore that von Strempel was given a sum of money which he fixed at $10,000, but that all he knew of what disposition was made of it or what preliminaries led up to the alleged transaction was hearsay, that he knew nothing more than what von Strempel had told him. As this was clearly not corroborative evidence as required by law, Mr. Stewart's attorney moved that it be disqualified and that the case be forthwith dismissed for lack of evidence, but both motions were overruled.

Thereupon in support of Mr. Stewart's statement that in September, 1941, after Charles Lindbergh's sensational Des Moines speech and our entry into the war seemed imminent, he received an anonymous contribution of $15,000 to help Scribner's Commentator, an impressive array of witnesses were put on the stand to prove both that Stewart's statement was true and reasonable and that the contention of the prosecution's witnesses was untrue and impossible. Also there were numerous witnesses to Mr. Stewart's well established reputation for veracity and integrity.

Not only did the prosecution witnesses, von Strempel and Thomsen testify that statments had been obtained from them under duress and

Interrogators named were O. John Rogge and Raymond Ickes of Attorney General Clark's office, and Paul Ertsinger, special agent of the FBI. The latter two were put on the stand to refute the charges of their "third degree" methods and other irregularities in preparing their case, but they were not convincing. Ertsinger is a syrupy, soft-spoken little fellow with a baby face, while in every move and utterance, Raymond Ickes bespeaks the ruthless despot, the coarse and cruel bulldozer.

At one time, in answer to a remark of the prosecutor, the judge said in substance: "Remember, Mr. Pratt, this is a very odd case. The prosecution has shifted its position several times." Originally the prosecutor tried to pin the perjury on both Mr. Stewart and Mr. Eggleston, his editorial associate, and went so far as to secure indictments on that basis from a supine and complacent hand-picked Grand Jury. Then, however, when it was discovered that Eggleston was on the Pacific Coast at the time in question, frantic efforts were made to escape the dilemma and a man named Lancaster Greene, who had never been connected with The Commentator, was indicted and the indictment of Eggleston ignored.

This frame-up was clearly a corrolary of the mass "sedition" case, which was mentioned several times during the trial, and had been under preparation by Maloney and Rogge since as early as November, 1941, before Pearl Harbor. Its trial at this time is deemed to be a last desperate effort of the New Deal Department of Justice to save its face and please its Jew masters by squeezing a few last drops of smear upon nationalist anti-war patriotic citizens.

Hans Thomsen "Coached" by Rogge

WASHINGTON,—Defense attorneys were overrulled by Chief Justice Bolitha J. Laws when they insisted today that the prosecution of Douglas MacCollum Stewart for perjury should be dismissed because the Department of Justice case "was built out of the whole cloth".

Shortly beforehand, Mr. Stewart's counsel successfully opposed the appearance of Lieut. Raymond W. Ickes on the witness stand in Marine Corps uniform. Lieutenant Ickes, former prosecutor in the case, was recently recalled to active Marine Corps duty, and flew here from Florida without civilian clothes. The defense considered his uniform prejudicial. His brief testimony was then read to the court.

John S. Pratt rested the prosecution testimony with the Ickes statement, and the final appearance of Dr. Hans Thomsen, former German Charge d'Affaires in Washington.

Mr. Stewart, former publisher of Scribner's Commentator is accused of telling a grand jury falsely that he "found" $15,000 in his house at Lake Geneva, Wis. The prosecution has produced Baron Heribert von Strempel, former German First Secretary, who said he gave Mr. Stewart between $10,000 and $15,000 at the Hotel Pennsylvania, New York, for German propaganda.

Warren Magee and Alfons Landa, counsel for Mr. Stewart, sought to quash the case on the grounds that the prosecution had not (1) produced two material witness in a perjury case, (2) had not provided sufficient evidence, & (3) had forced the German witnesses to make their statements against the defendant under duress, in Germany, including **threats that they might be put in concentration camps for the rest of their lives.**

Dr. Thomsen said that at an interrogation center in Germany, he had been "coached" by O. John Rogge, former Government prosecutor, in recalling details. He had difficulty, he added, in now remembering what Mr. Rogge and other questioners wanted, due to lapse of time, minor details, and his physical condition. Mr. Rogge questioned him six times, he said, and suggested to him that Mr. Stewart and George T. Eggleston, now of the Reader's Digest, had received the money at the Hotel Pennsylvania.

He remembered, he said, that Baron von Strempel told him **he had been threatened with death** if he did not cooperate; and this, Dr. Thomsen thought was "outrageous".

When asked detail about his authorization to von Strempel concerning payment to Mr. Stewart for a propaganda magazine, he termed this "the only transaction of the kind", in the United States, where the German Embassy was "careful not to overstep diplomatic privileges". He thought the incident occured in October, 1941.

Truman Carries the Ball . . . Margaret Sings . . . Butler on Hawaii

By WASHINGTON ADAMS

WASHINGTON, March 19 (Special)—President Truman continues to "carry the ball" in the Washington political game. Which is unfortunate for, and reveals weakness on the part of, the Republican leaders.

The Republican congress has an absolute veto (a **political "atomic bomb"**) with which to check executive absolutism, bossism or dictatorship. But it does not seem to know it. AND IT **ALLOWS** TRUMAN TO CARRY THE BALL.

Suppose the Republican Congress had said, **"Mr. President, we know our power and duty under the Constitution. Your rubber-stamp congresses are gone. Hereafter you must OBTAIN THE 'ADVICE' as well as the consent of the Senate before you publicly announce a foreign policy. Or NO SOAP!"**

Mr. Truman's famous **"check Communism in Greece"** speech would have been made to a **secret session of the Senate,** which would have debated it and swapped ideas with the Executive. WHEN ALL WAS READY THE SENATE WOULD HAVE ANNOUNCED THE POLICY IN A BILL, satisfactory to both departments.

Our Senators have allowed Truman to PUT THEM ON THE SPOT. He is trying openly to **outgeneral them for votes.** He is DEGRADING THE REPUBLICAN FORM OF GOVERNMENT—the representative system—by treating it as a STEPCHILD.

The Republicans gained power in November largely because the variable element of the electorate thought the **Newdealers were more communistic** and the Republicans less so; also because they wanted to re-establish PARTY RESPONSIBILITY and rebuke the Newdeal for its left-wing socialism.

Now Truman endeavors to grab the Anti-Communist banner out of the hands of the victorious Republicans, and to APPEAR in 1948 as the CHAMPION OF AMERICANISM, although his party is responsible for Russia's ascendancy in the world and for bringing our country to the brink of ruin, into which it may yet plunge.

Never in our history has a party, with control of Congress in its hands, made so poor a showing of independence.

If the infamous Newdeal committed governmental ATROCITIES—as it did, by the THOUSANDS—many of them should already have been IN THE ASHCAN!

If the Newdeal is an **INFLATIONIST ADMINISTRATION** — as it has been since 1934 when it **revalued gold** and unconstitutionally EXPROPRIATED it, and as it still IS TODAY, the Republicans should day by day DENOUNCE IT AS SUCH and pass laws to halt the inflation.

As it is—they let the average moron actually believe that they, the Republicans, are the believers in inflation! And hold them responsible for the high prices, which Newdeal laws brought about.

The Constitutional Convention of 1787 was held in absolute secrecy—no visitors and no news allowed.

MARGARET TRUMAN SINGS

I enjoyed hearing Margaret Truman in her singing debut over the ABC network Sunday night. She happily surprised me—sang better than I expected.

If she had been an Italian, every Italian person would have been justly proud of her. As it was, I, as an Anglo-Saxon, proud of my Teutonic-Nordic blood, was delighted that a beautiful young woman of my racial kindred should sing so magnificently in her first public recital.

Her Dad's selection, "The Last Rose of Summer",—one of my favorites also—was Irish, in a sense, and appropriate for St. Patrick's eve; but I believe I should have recommended an English and a Scotch song for the other two, instead of the Latin selections, altho she handled them beautifully.

Of the 15,000,000 who heard her, I am sure that 14,999,000 enjoyed her singing. Always allow for a few congenital pessimists.

DR. BUTLER OPPOSES STATEHOOD

I was delighted to find one of America's greatest men joining in opposing statehood for Hawaii. Congressman Dean P. Taylor (R-NY) put into the "Record" a strong letter by Dr. Nicholas Murray Butler, former president of Columbia University, to Sec. Krug, in which the great educator protested:

"Under no circumstances, should Alaska, Hawaii, Puerto Rico, or any other outlying island or territory be admitted as a State in our Federal Union," Dr. Butler wrote. "To do so, in my judgment, would mark the beginning of the end of the United States as we have known it.

"To add outlying territory hundreds or thousands of miles away, with what certainly must be different interests from ours and very different background, might easily mark the beginning of the end."

Ex-President Nicholas Murray Butler of Columbia wisely says that the admission of Hawaii may mean the beginning of the end of our republic, as established by the Fathers.

If the ancient Greeks—fathers of "democracy"—would allow no alien in their senate, with the penalty of death for its violation, surely we, the modern guardians of republican government, should refuse seats in our Senate to Japanese and Chinese senators, who would most certainly come from Hawaii.

Give Hawaiians DOMINION STATUS under our flag, if they are sufficiently qualified, but, for God's sake, don't take them in to help us run our own government!

JEWISH MASQUERADE EXPOSED

SAN FRANCISCO, — Marshall Abbott, running for Municipal judge in Los Angeles, asked the State Supreme Court for a writ of mandate to compel City Clerk Walter C. Peterson to put his name on the April primary ballot.

Peterson had refused to do so, saying Abbott had not complied with that section of the legal code which requires any applicant for office who has changed his name to file a supplemental form.

Abbott legally changed his name from Hymen Shapiro to Marshall Abbott in 1943.

Osteopaths Hit at AMA Hospital Bill

LOS ANGELES,—California Osteopaths don't like Senate Bill 512, they said today. And they particularly don't like what they charge is "monopolistic chicanery" of the California Medical Association as regards the bill.

Dr. Glenn D. Cayler, director of the Bureau of Public Affairs of the California Osteopathic Assn., told a meeting of local osteopaths that the CMA and the parent Medical Assn. is seeking control of Senate Bill 512.

This bill, he said, provides that any hospital built under the Hospital District Act must conform to AMA standards and be staffed only by physicians and surgeons who are members of CMA and AMA.

"It would mean that more than 2,000,000 California taxpayers who are patients of physicians and surgeons with the degree of Doctor of Osteopathy would be denied the use of these public hospitals," Dr. Cayler told fellow osteopaths meeting at the College of Osteopathic Physicians & Surgeons.

"Christian" Blessing of the Hounds

WASHINGTON, — I have just been down to the opening of the Marlborough Hunt in Maryland and I will positively bust if I don't tell about it.

I was a guest of Mr. Edward J. Smith of Upper Marlborough . . . . But it is gospel truth, so help me.

The hunt was to be opened by a very impressive ceremony known as "The Blessing of the Hounds". The scene was St. Barnabas Church, where the rector, the Rev. H. S. Arnold, was to bless both riders and dogs.

Well, foxes have been very scarce in this section of Maryland this season and there was considerable doubt whether the hunt would flush one at all. Most of the riders were convinced they would just have a nice day galloping after the hounds.

Dogs and riders assembled outside the church. The scene was one of deep solemnity.

The next instant there was complete pandemonium. The hounds went into conniptions, tore loose, and went bounding off amid maddened cries. The Rev. Mr. Arnold, who had just been about to bless them, stood dumbfounded.

This is what happened. Just as the ceremony was about to commence, a fox stuck its head through the fence like a Walt Disney character and sneered at the dogs.

Talmadge Ousted in Georgia

ATLANTA, Ga., — The Georgia Supreme Court handed down a historic 5-2 decision installing Lieutenant Governor M. E. Thompson as the state's chief executive, ousting Herman Talmadge from the office and ending one of the nation's strangest struggles for political power.

Talmadge immediately vacated the gubernatorial suite in the capitol.

Written by Presiding Justice W. H. Duckworth, the majority opinion of the court was that the General Assembly was not qualified to elect Talmadge to the office.

The majority opinion also declared:

1. That the death of Eugene Talmadge before he was officially declared elected did not empower the General Assembly to declare that no person had been elected and, consequently, to undertake to name a governor.

2. That the election of Herman Talmadge, son of the late governor-elect, was "a void act".

3. That Herman Talmadge consequently, had neither the right nor title to the gubernatorial office.

4. And, finally: "It follows that upon the resignation of Governor Arnall on Jan. 18, 1947, M. E. Thompson, the duly qualified lieutenant governor, became vested with full executive powers of this state."

* * * *

WHITE MAN'S "SUPERIORITY"

It is gratifying to note that Herman Talmadge immediately accepted the verdict of the Georgia Supreme Court.

We are living in very momentous times. Our own and the sins of our forebears are finding us out. One of them is the crime against Negroes. They were brought here against their will, were abused and continue to be abused. They have certain inalienable and God-given rights which the "Yankees" who brought them and the "Rebels" who still exploit them, refuse to recognize. This refusal constitutes the "menace" of the problem and not the presence of the Negroes in itself.

There is never a "menace" in recognizing and respecting in practice the rights of our fellowbeings. Only where one does violence does the menace start. It was under the claim of "white man's superiority" that Yankee slavers and the plantation owners have committed unpardonable crimes. This has created the present "menace" of millions of Negroes in the "white man's country". Who but the white trash produced this menace? To speak, then, of white man's "superiority" is utterly absurd.

The same elements are present in the "Jewish menace", only in different fashion. Most Jews are either Mongolian-Tartar Ashkenazim or else they came by way of North Africa and have Negro blood in them. The same corruption which introduced the black slave also attracted the treacherous Jews. In fact, the "white man" is being paid back in his own coin.

This extends to those Tories who introduced Japanese and Filipino cheap labor into California and elsewhere. Exploiters are never "white" nor are they "superior". Before we can speak of a "superior white race", the top-scum of the whites in America will first have to learn what it means to be white and clean.

With the progressive re-action to Communists the American mobster is also going to react to the Jewish intruders. The "menace" to America is not the Jews, but the white trash below and the white scum on top who invited the Jews to come and exploit all of us. The re-adjustment cannot proceed from violent reactions against Jews, Communists and Negroes, Japs, etc. Violence merely aggravates a bad mess. The adjustment comes by recognizing the evil in the white people themselves and curing it, then the aliens in our midst are naturally powerless to "menace" us further.

Mr. O'Konski is generally credited with being a nationalist as well as one of the most finished orators in the lower house. His campaigning in Chicago last fall is considered to be largely responsible for switching the large Polish vote of that city from the New Deal to the Republican column.

Financing Turkey Against Russia

LAKE SUCCESS, N. Y.,—American experts disclosed that most of the proposed $150,000,000 United States loan to Turkey would be used to bolster the Turkish Army against "any possible sudden thrust" and so give American forces time to act.

The experts said that at least half the $250,000,000 loan requested by President Truman for Greece would be used to equip and train the 100,000-man Greek Army for any eventuality.

As the commentary on objectives of the emergency aid program was made available in United Nations circles, Warren Austin, chief American delegate to the United Nations, called Truman's program "essential" to the success of the 15-month-old U. N.

UNITED NATIONS: ROTHSCHILD & ROCKEFELLER

To understand the "program of the United Nations" in the Middle-East one must keep in mind that the Rothschilds want the Dead Sea reservoir of fabulous wealth in minerals, while the Rockefellers want the Arabian and Persian Oil. Between the Usurers and the Tories we have the "United Nations".

Where does Russia and Communism come in?

It makes sense the moment one realizes that the "menace" to Usurers and Tories is the individual who thinks, is self-reliant and industrious. Wherever such individuals appear they must be destroyed otherwise the Cartel of R. & R. cannot control and dictate. Old man Rockefeller senior hired wobblies to create disturbances and sabotage his competitors. Large lumber companies followed suit. Communism, like cheap labor, was introduced in the U. S. A. by the Tories to break the independent American businessman and worker.

On the world scale, Russia is being used by R. & R. to force the U. S. A. to maintain armaments, huge taxes and military servitude. That breaks the individualist-initiative of the average American, holds useful production down, creates scarcity and rationing, burocracy and puts control in the hands of the President who is nothing but a gangster puppet of R. & R. His speeches are written by Rosenman and his foreign policy is "guarded" by Ben Cohen.

An Open Letter to Albert Einstein

Prof. Albert Einstein,
Princeton, New Jersey
Dear Sir:

I have just finished reading your article: "Only Then Shall We Find Courage", and I am writing this to say that you are completely right, so right indeed, that many will think that you exaggerate the danger that confronts us.

But I am quite sure that your view of the catastrophe that impends is no exaggeration. Have we not men high up in the Government of the United States who are deliberately and persistently planning for an attack on Russia? This sounds incredible; but you know that in 1918, American troops actually **were** sent to Russia, in cooperation with the British, French and other troops, in an effort to beat back the Russians in their new-found freedom. The American officials responsible for this un-warranted and un-justified attack on a nation with which we were not at war, and with which we had no quarrel, were never punished. And they are just as anxious to promote war with Russia now as they were then. They have the same objects in view and the same confidence that they can do it without any danger to themselves.

Throughout all American history it has been the same.

The men who blew up the battleship Maine in 1898 were so highly placed that our Government could not, or at least did not bring them to justice. They had tremendous newspaper support. So our country was plunged into the the Spanish-American war to the tremendous profit of Big Business. And the evidence that might lead to the identification and conviction of the criminals is now at the bottom of the ocean. The lives of two hundred and sixty sailors was but a small price to pay for the profits of Imperialism.

And who were the criminals who loaded munitions of war on the Lusitania, and kept the American people ignorant of the fact? What right had they to put innocent passengers aboard that ship, knowing full well that they were bound for the bottom of the sea? Why can't these men be sought out even now and made to answer for their crime? Not only for the needless sacrifice of Elbert Hubbard and Charles Frohman and the other innocent passengers, but for dragging our country into World War I. Would the men who committed this crime hesitate to commit another like it in order to get us into still another World War? How can we be safe so long as these men are at liberty and their crime un-punished?

And finally, how about the men who **murdered** Hiroshima and Nagasaki? As you truly say: "The war could have been won without it." And I think you could have gone much further and said that all legitimate objectives of the war had already been won. If this be so, that bombing was the greatest crime in all human history. Dare we leave it go un-punished? If we do, what assurance have we got that some other nations may not seek to retaliate upon us and give us a dose of our own bombing?

And could we justly blame them, even tho it cost us New York and Washington and a few million American lives?

As you truly say, it is not now a matter of physics, but of ethics. Physics has gone far enough. Ethics has got to catch up. This means, in plain English, that we have got to compel our Government to start acting decently. We have got to start punishing our war criminals. We have got to make a distinction between war and murder. They are two totally different things. We have got to start confessing our sins and making what amends we can for our acts of aggression against other nations, beginning with Japan. We have got to start telling the truth about American history. We have got to admit that we have been an aggressor nation thruout the whole of our national career, and that even now, we have men in high places among us who are planning for the conquest of Russia that will make our ruling class the master of the Human race.

I know this sounds too hideous to be true. But if your knowledge of history and politics were as great as your knowledge of physics and mathematics, I think you would see what I mean.

Of course, you are absolutely right in your demand for a World Government—a government in which every literate man and woman shall have an equal part. But how can you get the American people to agree to this while we are so obsessed with the idea of our own self-righteousness—our immaculate virtuosity?

We believe most devoutly in our own righteousness; but whom have we fooled besides ourselves? Have we fooled the Japs or the Germans or even the Argentineans? And do you think the Russians love us for our refusal to let them lock their own front door—the Dardenelles? And don't you think that all the Latin-Americans who have felt the weight of Yanqui Imperialism know that we are a fake? Then why not admit to ourselves what all the rest of the world knows about us?

Before we are spiritually fit to lead the world to peace and freedom we have got to have the courage and humility to confess our sins, punish our criminals and make what amends we can to those whom we have wronged.

And the alternative to this is War and Extinction.

Yours very truly,
WALTER GROTH
1124 S. Alvarado St., Los Angeles 6, Calif.

American Communists, it is revealed, are now being trained in Moscow to create terror when the opportune moment comes in the U. S. A. Training is given in murder and sabotage. Under the heading of "Murder" they are taught how to enter a dark room and stab a person thru the heart; how to strangle a man with a picture wire; how to poison food and drink, etc. Under the heading of "Sabotage" they are taught how to cripple various types of machinery in wartime; how to blow up bridges, buildings and power plants; how to disrupt transportation and communications. Expert observers believe many of the recent accidents, train wrecks, and colossal fires, as well as explosions, are merely experiments in the art of creating terror and are merely samples of thousands and thousands of such incidents that will take place if, as and when a Red revolution breaks out here or we have trouble with Russia.

Henry Wallace Said a Mouthful

TAKES BALL AWAY FROM "REPUBLICAN" OPPOSITION PARTY

NEW YORK, — Former Secretary of Commerce Henry A. Wallace assailed President Truman's message to Congress as a statement of policy which would spread communism thruout Europe and Asia.

Wallace, in a network broadcast for which he asked to "answer" the President, said it was uncertain whether **American dollars would "outlast the grievances" on which communism thrives.**

"What is this crisis that necessitates Truman going to Capitol Hill as though a Pearl Harbor had suddenly hit us?" he asked. "How many more of these Pearl Harbors will there be? How can they be foreseen? What will they cost?

"I predict that Truman's policy will spread communism in Europe and Asia."

Asserting that the President, by sanctioning former Prime Minister Winston Churchill's speech at Fulton, Mo., last year, had committed the United States to a program of "combatting Russia with British resources," he added:

"Now President Truman proposes we take over Britain's hopeless task. Today Americans are asked to support the governments of Greece and Turkey. Tomorrow we shall be asked to support the governments of China and Argentina.

"I say that this policy is utterly futile. **No people can be bought.** America cannot afford to spend billions and billions of dollars for unproductive purposes."

Wallace asked how Russia could be expected to take in good faith "our proposals to the United Nations on atomic energy" when President Truman by proclaiming "worldwide conflict between East and West" was telling Soviet leaders **the United States was preparing for war.**

"They will reply," he said, "by measures to strengthen their position in the event of war. Then the task of keeping the world at peace will pass beyond the power of the common people everywhere who want peace."

Wallace said that if war comes, it would be because **"we have failed to think on the scale required for peace."** The people of the world, he said, were asking for plows instead of "tanks and guns".

"I believe we have something better than Communism in America," he said. **"But President Truman has not spoken for the American ideal.** It is now the turn of the American people to speak."

Frank Sinatra should be finished in the eyes of the American public if there is enough righteous indignation left in the Nation to express itself effectively. Sinatra is a mongrelizer and race mixer and was given the award last year by the American Youth for Democracy (new name for Young Communist League). Now it is revealed that he has been vacationing in Cuba with convicted vice operators and assorted hoodlums from Miami's plush gutters. It is alleged by the press that he has been in the association of the so-called Lucky Luciano and that Ralph Capone, brother of the late Al Capone, was in the circle. Luciano, it will be remembered, was sent to Sing Sing Prison for his activities in buying and selling young women for prostitution.

CATS, BACTERIA CARRIERS

LOS ANGELES,—Cats were banished from Los Angeles restaurants by City Health Officer George M. Uhl, who said they were as bad as the rats.

"Despite their reputation for neatness, cats cause contamination in kitchens," he said.

"They are hopeless failures as rat eradicators. We find some of our biggest rat colonies right under a cat's nose."

Rats whisk their tails in contempt at pursuing cats, and flourish to a degree that proves their philoprogenitiveness (love of off-spring to you).

Occasionally, he said, the rodents gang up on a cat and—swoosh—no cat.

Dr. Pulley then hauled off and smashed another cat legend.

Their reputation for cleanliness is the bunk, he said.

They pick up bacteria, especially in restaurant kitchens, and spread them to a degree that defies measurement, Dr. Pulley said.

Editor's Note: Cats as pets are a health menace, too. Not only do they carry inflamatory bacteria but their hair at times gets into children's throats, produces coughing until expelled. If the hair enters a human stomach it may cause ulcers. Fleas spread disease.
